INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** Created a personal site at <http://ritterhaus.net> that is built on JavaScript, CSS, and HTML. This site will showcase many of the things I'm currently learning through several projects.
- **StoreFront:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
- **S.A.T. Scheduling Administration Tool:** Created a secure application for managing product data. Application is built to simulate an online class scheduling system. Administrators will have the ability to manage students, courses, scheduled classes, and enrollments.

WORK EXPERIENCE

Technical Instructor, Interface Technical Training
Phoenix, AZ

10/2022 – 04/2023

- Delivered remote technical training in Microsoft cloud products, such as Azure, Teams, and Exchange Online.
- Taught industry best practices for securing cloud infrastructures while providing seamless access to corporate data by users.

Technical Instructor, Centriq Training
Kansas City, MO

05/2007 – 09/2022

- Delivered technical training in several products, including M365, Azure, Teams, Exchange Server and Exchange Online, Windows operating systems, PowerShell scripting, Linux systems administrations, networking, and Cisco support.
- Tested and mapped out the use of new remote teaching technologies as we transitioned from classroom to remote training.
- Tested and selected new smart screen technologies for use in the classroom and in on-premises meetings.
- Developed custom training and advised content developers in the creation of books and electronic materials for standardized courseware.
- Assisted on a team that was one of the first to deliver custom technical training to men and women moving into the IT industry.
